# ABIC 05 – Arabic Language in Jordan (Private Program)

Ali Baba International Center (ABIC) is situated in the heart of Amman, the vibrant capital of Jordan. The Center offers private Arabic language programs designed for international students and professionals seeking flexible, personalized instruction. A private program may consist solely of a language course or include the three core components of a full immersion experience: (1). A language course, (2). A comfortable accommodation, and (3). A set of rich extracurricular activities and guided-tours to the major tourist attractions of Jordan. Details are given below.

**Text Books :** ABIC's private courses are primarily based on two widely recognized textbooks: Al-Kitaab and Al-Asas. These core materials are supplemented with additional resources and activities tailored to meet the individual language needs and learning objectives of each student.

**Topics and Content:** The content of each private course is customized by the instructor according to the student's proficiency level and specific language goals. Topics may include Arabic media, politics, and contemporary issues in the Arab world, among a wide range of other relevant subjects.

## Official Credit Transfer and Equivalency

Upon completion of a private course, ABIC provides official transcripts and can issue supporting documentation to assist home institutions in granting academic credit. As a general guideline, one credit hour is typically awarded for every 15 to 20 contact hours completed through ABIC's Private instruction.

**Number of Hours :** Students may enroll in as many private lessons as needed, with flexible scheduling and duration. Private courses can be structured around various weekly intensities, such as 15 ,10, or 20 lessons per week, depending on the student's preferences and goals.

**Levels :** All language proficiency levels are available, including entry-level, beginner, intermediate, and advanced. Each student's level is determined through a private placement test and a pre-program interview to ensure appropriate course placement.
